

Amendments to the Specification

Please replace paragraph [0016] with the following amended paragraph

[0016] As shown in FIG. 1, one embodiment of the battery bolt of the present invention is generally designated as reference numeral 10. The battery bolt 10 contains a head portion 12, a washer portion 14, a non-threaded portion 16, a sealing portion 18 and a threaded portion 20. Preferably head portion 12 is a polygon having six sides (i.e., a hex head), however those with skill in the art will recognize that a multitude of head geometries can be used, such as polygons having three, four, five, seven or more sides, allen heads, torx heads, etc. It is preferred that the head portion 12 have a height of 0.114 inches. Other head dimensions within practical manufacturing limits are also contemplated within the scope of the present invention.
